

LUNA RISK

An introduction

Silk Standards. Steel Evidence.

RMF FIELD NOTES, REFINED

01

Who is Luna Risk?

Luna Risk is a public-facing GRC voice
built at the intersection of governance,
evidence, and quiet authority.

The work centers on translating technical
realities into clear decisions, stronger
controls, and audit-ready proof.

RMF FIELD NOTES, REFINED

The standard

Elegant format

Clear, calm communication.

Durable proof

Evidence that holds up under review.

Exact criteria

Control intent without guesswork.

RMF FIELD NOTES, REFINED

WHAT THIS WORK COVERS

- ✦ NIST 800-53 thinking
- ✦ ATO-readiness concepts
- ✦ Evidence discipline
- ✦ Risk logic for real operations
- ✦ AI governance and control-minded practice

RMF FIELD NOTES, REFINED

WHY THIS EXISTS

Because a control is not enough
on its own. Someone still has
to interpret it, document it,
test it, and prove it.

This work is for the files,
the logic, and the evidence
that must survive review.

RMF FIELD NOTES, REFINED

WHO THIS IS FOR

For the operators behind the evidence

If you build, review, support, or translate
control evidence, this series is for you.

For the leaders who sign off

RMF FIELD NOTES, REFINED

WHAT TO EXPECT

Practical control breakdowns

Policy and artifact guidance

Evidence-minded risk analysis

Clear explanations for technical
and non-technical readers

Practitioner-built examples

RMF FIELD NOTES, REFINED

The promise

Poised. Precise. Verifiable.

The goal is simple: make governance
more readable, evidence more durable,
and risk conversations more useful.

Welcome to Luna Risk.
